Who Are We?

Hello, we are three friends. This is a unique website containing stories about an achievement. We created this through the course "I am the first". In this, we have properly described what we have done and what we used to create this. We have also included the sources for it. Let's explain.

Frontend

How the front end works
and customization?

Backend

How the back end works
and it will be runs on the
online platform ?

Database

How the frontend and
backend will be works
through the database?

Run

How the process will be
continuously working and
calculating ?

Frontend

The front end of a website or application is what users see and interact with, and is responsible for the overall look and feel of the user experience. It includes visual elements like buttons, graphics, and text, and allows users to navigate the application.

Backend

The backend is the part of an application or website that runs behind the scenes and is not usually visible to the user. The back end of a website is everything that goes on behind the scenes, from servers to databases, and much more. In a nutshell, a website's back end is everything the user doesn't see.

Follow the link
to get the
html code

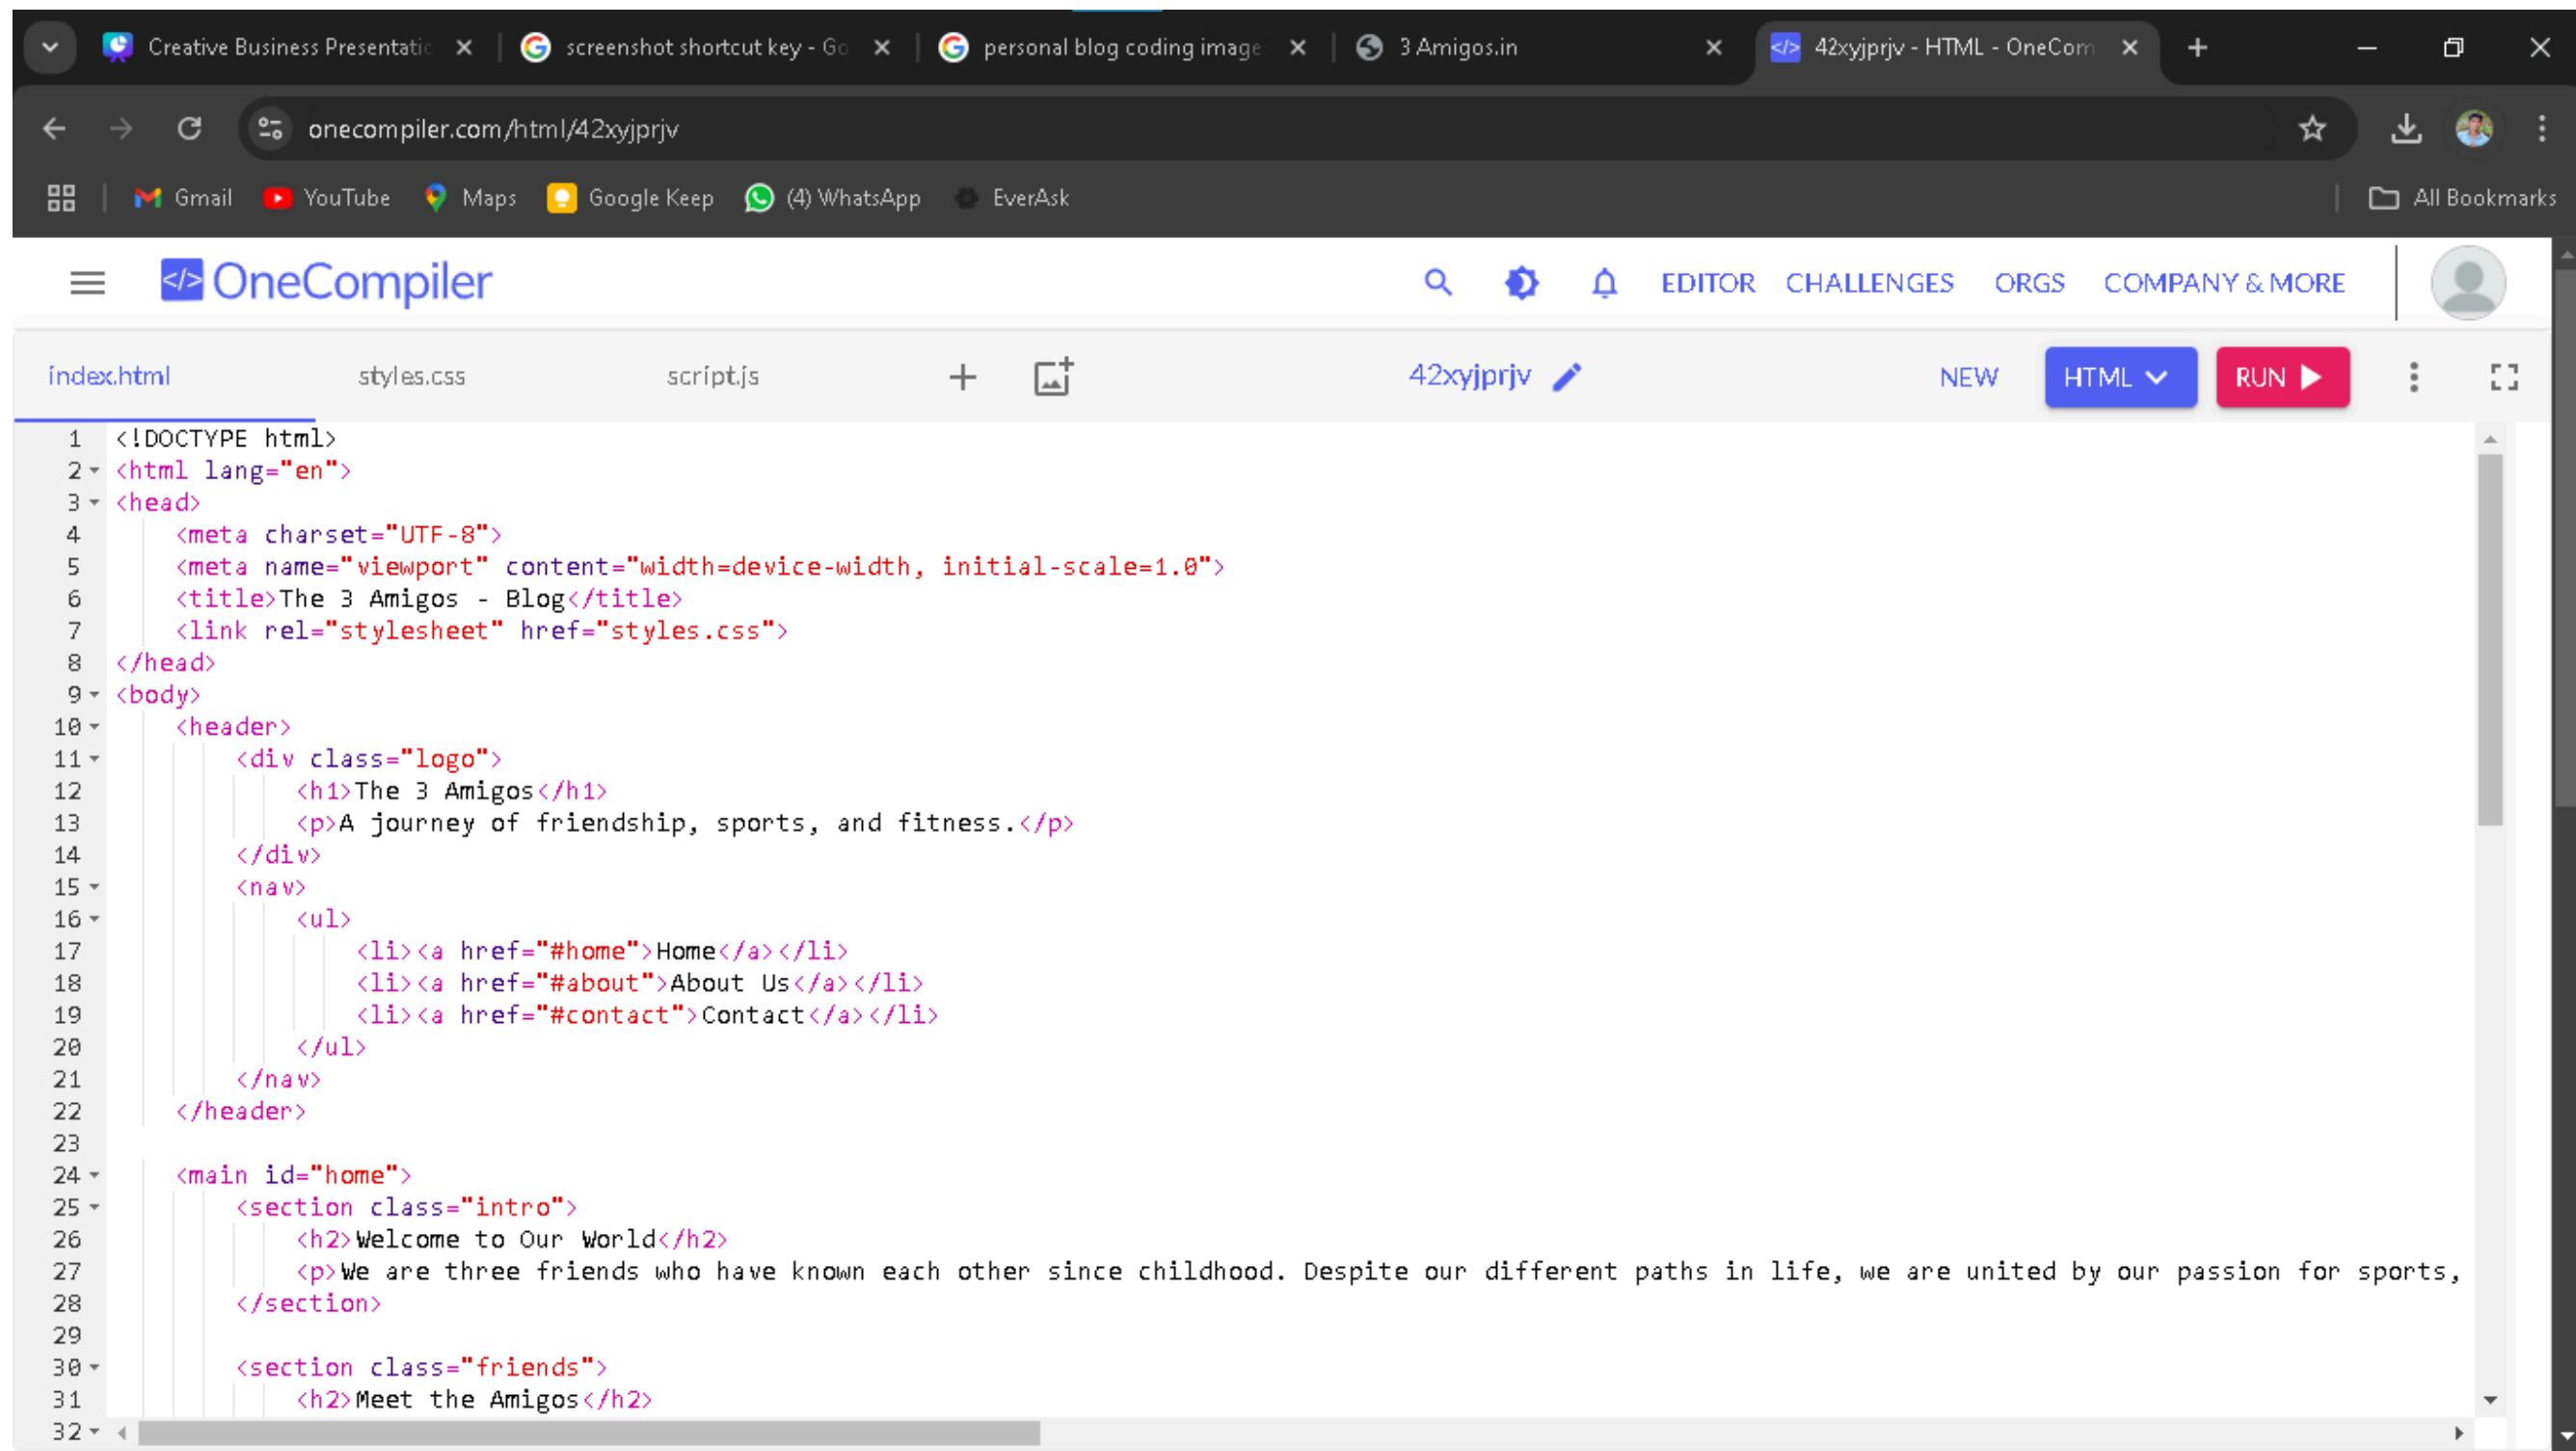

<https://onecompiler.com/html/42xyjprjv>

The above link will be shown the HTML code .just click on the laddress to get the code and the images are been upload using compiler.

INPUT

Amigos Presentation

The screenshot shows a web-based code editor for HTML, CSS, and JavaScript. The URL in the browser is `onecompiler.com/html/42xyjprjv`. The editor interface includes tabs for `index.html`, `styles.css`, and `script.js`. The `index.html` tab is active, displaying the following HTML code:

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>The 3 Amigos - Blog</title>
7   <link rel="stylesheet" href="styles.css">
8 </head>
9 <body>
10 <header>
11   <div class="logo">
12     <h1>The 3 Amigos</h1>
13     <p>A journey of friendship, sports, and fitness.</p>
14   </div>
15   <nav>
16     <ul>
17       <li><a href="#home">Home</a></li>
18       <li><a href="#about">About Us</a></li>
19       <li><a href="#contact">Contact</a></li>
20     </ul>
21   </nav>
22 </header>
23
24 <main id="home">
25   <section class="intro">
26     <h2>Welcome to Our World</h2>
27     <p>We are three friends who have known each other since childhood. Despite our different paths in life, we are united by our passion for sports,</p>
28   </section>
29
30   <section class="friends">
31     <h2>Meet the Amigos</h2>
```

OUTPUT

Amigos Presentation

The screenshot shows a web browser window with the title bar "3 Amigos.in". The main content area displays three cards, each featuring a portrait photo and a title. The first card is for "Surendhar - Drag Racer", the second for "Siva Balan - Football Player", and the third for "Pasupathi - Volleyball Player". Each card also contains a brief description of their achievements.

3 Amigos.in

Surendhar - Drag Racer
Surendhar is a passionate drag racer with a love for speed and thrill. He's known for his achievements in racing and his dedication to the sport.

Siva Balan - Football Player
Siva Balan is a football enthusiast who brings energy and strategy to every match. His skills on the field are admired by all who watch him play.

Pasupathi - Volleyball Player
Pasupathi is a skilled volleyball player known for his agility and precision. His commitment to the game is evident in every match he plays.

Amigos Presentation

Our works

Code

It's similar to writing a recipe for cooking, where you give the computer instructions and elements it needs to work with.

Web Design

Presentations are communication tools used as demonstrations, lectures, reports, and more.

Graphic Design

Presentations are communication tools used as demonstrations, lectures, reports, and more.

It is fully made of html,java and css codes.then it bwill be compile and run the program to get the output.
